

## DISCOVERING NEW GIFTS

The L'Arche Jacksonville Rainbow Workshop is a day program that welcomes those with intellectual disabilities to explore their talents and achieve goals they never knew were possible.

Assistants, volunteers, and instructors encourage participants to embrace new techniques and develop the skills to create treasures such as ceramics, jewelry, mosaics, greeting and note cards, and paintings.

**Lisa is known for her abstract pieces and beautiful creations.**

**Rainbow Workshop attends and participates in many art sales throughout the year to share and sell their work!**

## WORKS FROM THE HEART

The L'Arche Charter states, "People with intellectual disabilities have insights, leadership, and gifts that society needs. We create spaces to share life together - listening and being deeply present to each other, especially in our households and workplaces."

The Rainbow Day Program creates an environment for growth and relies on your generosity to provide opportunities for creativity and social engagement.

**Sewing is a newer addition to the many gifts our volunteers bring!**

**Did you know that Jeff is known for his pet portrait paintings and has been commissioned by residents across the first coast and beyond?**

**Tommy shares his gifts by making sure everyone knows the lyrics to every song from "The Sound of Music".**

## COLORS OF THE RAINBOW

### Red

Help replenish daily supplies such as glue, paint, etc.

### Orange

Provides snacks for a week to core members

### Yellow

Sponsors an art instructor for 3 days
